$$P(L/P) = \frac{P(L \cap P)}{P(P)} = \frac{0,05 \cdot 0,9}{0,05 \cdot 0,9 + 0,95 \cdot 0,1} = \frac{0,045}{0,14} = \frac{9}{28} = 0,3214 = 32,14\%$$
